

A message to our customers, from Devon Clothing

You may have noticed some changes at Devon Clothing recently.

Here are some of the early changes that may affect you:

- We now own our own offshore manufacturing plant, so we have more control over our finished product.
- In times where prices seem to be going up, we've got some good news on some of your items which have seen a price reduction.
- We've updated our PE polo sizing to bring it more in line with current sports uniform suppliers.
- Our codes for our products have changed but you can still find what you need online by checking the garment photos, which have stayed the same.

We understand that some of these changes might seem confusing or be a little inconvenient in the short term, but we're working towards a bigger and better future with Devon Clothing, and we'll do our best to keep you updated with any changes as they occur.

To help you with our new PE polo sizing, please see the table below.

OLD SIZE	10Y	12Y	14Y	S	M	L	XL	2XL	3XL	4XL	5XL
NEW SIZE	4XS	3XS	2XS	XS/16	S	M	L	XL	2XL	3XL	4XL

If you need some help in choosing your new PE polo size, please don't hesitate to get in touch with our shop assistants at your school uniform shop.

While we transition to the new sizes you may notice that the old sizes are still listed on our current garments in stock. We apologise for any confusion caused by this and expect it should be resolved fairly quickly.

Thank you for your ongoing patience and support,

From the Team at Devon Clothing!
